

## THE HIGHEST-PERFORMING COMPONENTS

### COMPONENT 1: Z-SERIES SILLS

Z-Series Sills provide the best combination of performance and value.

1. Built to last with all-composite substrates
2. Modularity for savings and flexibility
3. Never need adjustments (Z-AC only)
4. Seals with imperfect margins (Z-AC only)

### COMPONENT 2: ULTIMATE ASTRAGAL

The Ultimate Astragal has a floating three-point seal that resists damage because the seal is lifted when traveling over the threshold.

1. Patented, retractable floating boot eliminates the failure of the rubber boot
2. 4-way adjustable strike retainers

### COMPONENT 3: WEATHERSEALS

Weatherseals designed, engineered and tested to provide the ultimate protection from outside elements.

1. Offers more contact surface with door panel
2. Low-Wick Weatherseals
  - Absorbs 50% Less Water
  - Available in PE650 & Simple Solution™ Corner Pads

### COMPONENT 4: DOOR BOTTOMS

Endura's Dual Bulb Door Bottoms offer a superior barrier against air and water.

1. Door bottom retains its shape and maintains tight contact with the sill
2. Prevents intrusion of the elements while allowing comfortable door sweep

### COMPONENT 5: CONTINUOUS SILLS, HEADERS AND ONE-PIECE MULLS

Endura's continuous sills, headers and one-piece mulls eliminate joints that allow water and air intrusion.

1. Parts are precisely machined to meet specifications and ensure a secure fit
2. Provides superior strength
3. Prevents racking & poor system performance

## 5 THINGS YOU GET WITH CERTIFIED POWERED BY ENDURA™

Endura created the Certified Powered By Endura Door System to provide customers with the best door systems available. With Certified Powered By Endura you get:

- 1 The Highest-Performing Door System Components
- 2 A Clearly Defined, Strong Warranty
- 3 Door Systems That Are Certified, Third-Party Tested
- 4 No Customer Callbacks on Door System Failure
- 5 A Marketing Program with Materials to Help You Sell Certified Powered By Endura

## PERFORMANCE.

### WHAT DO CERTIFIED POWERED BY ENDURA™ DOOR SYSTEMS FROM YOUR DEALER PROVIDE?

**Superior Components** - Certified Powered By Endura Door System parts are designed to work together. When these components are used in conjunction, the seal between the door and the opening is maximized, and air and water infiltration is minimized.

**Covers Every Opening** - Certified Powered By Endura Door Systems are available for all exterior applications including entry, patio, side, garage and utility door systems. Look for Certified Powered By Endura Door Unit identification.

**Certified, Third Party Tested** - Certified Powered By Endura provides you with a certified third-party tested and proven door system that provides superior performance in the field.

Utilizing the Certified Powered By Endura Door System eliminates these common problems:

- Customer Callbacks
- Wasted Time on Repairs
- Lost Productivity on Repairs
- Lost Revenue on Repairs
- Expensive Damage Due to Water Leaks

## WARRANTED.

### WHAT IS THE CERTIFIED POWERED BY ENDURA™ SYSTEM WARRANTY?

#### IT'S A CLEARLY DEFINED, STRONG WARRANTY

Endura stands behind Certified Powered By Endura Door System performance with a clearly stated and powerful warranty your customer can transfer to the homeowner. The combination of the highest quality door system components along with our guarantee will improve your reputation and market share.

#### WARRANTY PERIOD

Lifetime, non-transferable Warranty from the date the Certified Powered By Endura Door System was purchased.

#### UNIT IDENTIFICATION

Each Certified Powered By Endura Door System may be identified by a non-removable tag or label identifying such Certified Powered By Endura door unit.

#### WARRANTY EXCLUSIONS

There are exclusions that the Certified Powered By Endura warranty will not cover including changing components and improper installation.

#### CLAIMS

Claims must be initiated promptly following Warranty Holder's earliest awareness of a potential issue.

#### GENERAL CONDITIONS

This is the only express warranty applicable to Certified Powered By Endura Door Systems and no one is authorized to modify or expand this Warranty.

#### WARRANTY REIMBURSEMENT

Applies if the Certified Powered By Endura Door System includes all of the applicable components referenced above, has been properly assembled and installed following recommended Certified Powered By Endura procedures, has not been subjected to changes in rough opening dimensions and stability (i.e. plumb and square) and has been properly maintained by the Warranty Holder, and the product (or components) fails to perform to the certified and published levels of air and water infiltration applicable to the Door System during the Warranty Period solely due to non-conformities in the product as warranted, and Endura is notified using Certified Powered By Endura Warranty Claims Procedures.

## CERTIFIED.

### HOW ARE CERTIFIED POWERED BY ENDURA™ DOOR SYSTEMS THIRD-PARTY CERTIFIED TESTED?

Third-Party Certified Powered By Endura Door System testing is conducted by or witnessed by an accredited entity that is independent from the manufacturer whose door product is being tested. Endura, in conjunction with a third party, conducts independent testing on door units incorporating panels from most major manufacturers for Certified Powered By Endura results.

#### Why is Certified Testing Important?

Testing is important because it provides information on the performance capability of a door system. In markets where building codes dictate minimum performance requirements, it is only through testing that a door system's capability can be understood. Testing results can also be used for general marketing purposes, even if code requirements do not exist.
