

Three features determine the type of Magnum Bolt compatible with your French Door. If you are purchasing the bolt to replace an existing one, determine the following on your current bolt:

- **Length of Bolt:** 9" or 19"
- **Location on the Inactive Door:** Door Panel or Astragal - This determines the profile of the bolt.
- **Width of the Bolt Pin:** 3/8" or 5/8"

PROFILE OF THE BOLT:

Profile Options	How to Identify/ When to Select
1/4" Medium Profile	When bolt is on the astragal.
3/8" Standard Profile	When bolt is on the door panel.

WIDTH OF BOLT PIN:

Width Options	How to Identify/ When to Select
3/8" Width	Provides required strength, can easily replace other brands.
5/8" Width	Provides additional strength.
